

Colleague AI

Professional Learning

Colleague AI is an innovative educational platform featuring AI assistants that serve as knowledgeable colleagues for educators and friendly learning companions for students. Our purpose is to create dynamic, collaborative, and personalized educational experiences for everyone.

Colleague AI for Administrators

Wednesday, March 5, 2025 | 10:00am–11:45am | Virtual

Discover how Colleague AI can enhance your educational leadership in this workshop designed specifically for school and district administrators. This session will guide you through supporting teacher development, utilizing data and reporting, and creating an actionable implementation plan.
